

- 1) Find and evaluate your department's infection control policy.
  - 2) Find and evaluate the hospital's policy with respect to cleaning, disinfecting and processing medical equipment.
  - 3) Turn in a written analysis of these policies explaining the strengths and weaknesses. Note: you may do this by comparing what you learned in class to your department's policy.
- or
- 4) Write an infection control policy for your department and for the hospital (with respect to cleaning and disinfecting medical equipment), which you will forward to your supervisor for consideration by 2/25/2019.

Due on Monday 2/25/2019
